**SOLID WASTE SECTION**

February 13, 2007

Mr. Stephan King  
Director of Solid Waste Management  
Haywood County  
278 Recycle Road  
Clyde, North Carolina 28721

Subject: Response to Permit Modification Request  
Alternative Cover Material (ACM)  
Haywood County MWSLF  
Permit No. 44-07  
Haywood County

Dear Mr. King:

I received your letter on February 12, 2008, entitled; *Request Modification of Landfill Permit 44-07; Haywood County MSW Landfill: Final approval of Alternate Daily Cover*. Prepared for and prepared by Haywood Count Solid Waste. Dated February 7, 2008. Document ID No. 3925. I have familiarized myself with the ACM request, the ACM history at your facility, Mr. Patterson's letter dated June 28, 2007, and the recently proposed modifications to your permit.

First of all, regarding your letter, I am unable to process an incomplete application. For this application to be considered complete I will need:

- Confirmation from Ms. Ellen Lorscheider, of this Section, that the appropriate permitting fee has been paid for the permit modification. You may contact her at (919) 508-8499.
- A complete and updated Operations Plan for the facility that incorporates the ACM operation. The Plan should include all of the activities at your facility. The Plan must be certified by a professional engineer.
- A Certified Demonstration Report demonstrating the feasibility for the use of ACM material on a full time basis. The Report must be certified by a professional engineer.

Phone (828) 296-4500 \ FAX (828) 299-7043 \ Internet <http://wastenotnc.org>  
An Equal Opportunity / Affirmative Action Employer – Printed on Dual Purpose Recycled Paper

- Written concurrence with the Report and Plan from the Section's Compliance Branch, which I will request upon receipt of the application.
- One (1) written copy of all information submitted to the Section's Office in Raleigh, one (1) written copy to me and I would appreciate an electronic copy in PDF format for documentation purposes.

Next, I have been informed by Mr. Dave Pasko of McGill Associates that you will soon be requesting a permit action for; a new Grinding and Mulching - Treatment and Processing activity and a new Small Type 2 Composting activity at your facility. I recommend that you add the request for ACM approval to these and submit one application. I believe the County will benefit by combining the three (3) requests into one application.

Finally, should you have any questions regarding this matter you may contact me at (828) 296-4704.

Sincerely

Larry Frost  
Regional Engineer
